ST. VIATEUR'S COLLEGE.

Historical.

TO SECURE the faith of the people, and especially to shield the young from the dangers of apostacy, it had been decided by the ecclesiastical authorities of Chicago that Bourbonnais be made the center of the most enlightened Catholic teaching, as well as the highest and most practical secular learning.

To accomplish this end the clerics of St. Viateur were called from Joliette, Canada. The Very Reverend P. Beaudoin, C.S.V., R.D., arrived in 1865 and took charge of the Parish of Bourbonnais. While under his direction Bros. A. Martel, C.S.V., and J. B. Bernard, C.S.V., opened a commercial academy, which soon attracted a large number of students. In 1868 the Rev. Thomas Roy, C.S.V., was sent from Canada to inaugurate classical studies and to assume the direction of the growing institution. The proportions of the original school building now became entirely insufficient. Demands for more room and better accommodations were numerous and urgent. In 1869, the principal part of the present building was erected and fitted out for immediate use. Courses in Languages, Literature, Music, Sciences, Philosophy, and Theology were opened.

In 1874 the College received its University charter from the State Legislature of Illinois. By virtue of this charter, the institution was empowered to grant degrees in Arts, Sciences, and Letters.

Father Roy, whom tireless pioneer work had exhausted, returned to Canada where he died July 16, 1879, leaving St. Viateur's College in charge of the Rev. M. J. Marsile, C.S.V.

Roy Memorial Chapel.

But as the "just man shall be in everlasting remembrance," so the consecrated life of Father Roy was held in pious memory by those to whom he had broken the bread of virtue and of knowledge.

In June, 1888, a large number of the Alumni, in meeting assembled, voted that a chapel be erected by them as a memorial of Father Roy's zeal and as a tribute of their own love for him. Contributions were promptly paid up and the next year beheld rising beside the principal building the graceful and airy towers of the Roy Memorial Chapel. The architecture of the edifice is of Corinthian style; its spacious auditorium is a perfect rotunda, adorned with stained glass windows of the highest artistic value, paintings of rare beauty and inspiration, statues of the patron saints of youth, and a grand pipe organ, whose sweet swelling tones elevate and cheer the soul as do the varied accents of human eloquence.

The Chapel has a seating capacity of five hundred. It is, like the other College buildings, constructed of blue stone drawn from the neighboring quarries along the Kankakee river. In the wing, which was built at the same time, to unite the Chapel with the old building, were located the parlors, reception rooms, the minim and musical departments, and the lecture rooms of the higher commercial course. With these important additions the College is now fitted to accommodate four hundred students. Judicious taste and nicety are evidenced in the appointments of class rooms, study hall, dormitories, and dining rooms. But neither safety nor comfort has been neglected. All the buildings are lighted by electricity and heated by steam, and thus this massive pile of stone edifices is rendered almost fire-proof. An abundance of excellent water is supplied by a neighboring spring, through a complete system of water works. Bath rooms with hot and cold water and toilet rooms with all modern appurtenances are found in convenient proximity to sleeping and dressing rooms.

The vegetable gardens and stock farms of the College and of the outlying districts supply the tables with the most nutritious food. The culinary department is in charge of the Sisters, as are also the infirmary, laundry, and dormitories. The diet of the students is always wholesome and abundant. In sickness, the students are watched over with parental solicitude, and all the care that parents can desire is given to the wardrobe, the dormitories, and all those departments upon which health, comfort, and economy depend.

Location.

St. Viateur's College is situated in Bourbonnais, a village of ideal pastoral quietude. It is distant fifty-six miles from Chicago and three miles from Kankakee. Its site, on the old Levasseur Hill, overlooking a scene of rural peace and plenty, just on the verge of an extensive grove of forest trees and hard by the banks of the Kankakee river, is peculiarly beautiful and healthy.

The pure and bracing open air, the romantic scenery, the abundance of game in and along the river, have made Kankakee a favorite resort of pleasure and health seekers. Near enough to enjoy the advantages of the city when needed, the College is far enough removed from its distractions and moral dangers. It is well known that retirement from the noisy scenes of the street and from the distractions of the city is most favorable to, if not indispensable, for deep study, as well as for the formation of good habits. From the constant and direct intercourse between College companions, not only are the ties of salutary friendship more closely woven, but there springs up also in the hearts of even careless students a wholesome emulation, a hitherto unfelt appreciation of the advantages of study. This in part explains the unprecedented success so gratifying to solicitous parents. On the other hand, the College is not entirely a silent solitude. Its position out of the city has enabled the directors to purchase spacious grounds

which are beautifully shaded and arranged for all the favorite national outdoor sports. The animation of the campus is suggestive of anything but lifeless seclusion when the several military companies are manœuvering, when games of baseball, football, lawn tennis and handball are in progress, and beside them, all the swift speeding bicyclists pedalling around the smooth. shady race track.

Amateurs of the piscatory sports, or lovers of woodland scenery are accompanied by their professors to their favorite haunts, to the rendevouz of the finny tribe, or in the tangled forests of the picturesque ravines. Those not partial to musing on the beauties of nature find pleasure in gathering nuts and wild fruits. Skating and sleighing are favorite winter sports and within the reach of all. Swimming and boating are indulged in under the careful supervision of the tutors.

The large and well-aired halls of the College are specially well adapted for indoor sports during the winter as well as for dramatic and musical entertainments of a high æsthetic order.

Accessibility.

The College is most easy of access *via* Kankakee or Bradley, on the main line of the Illinois Central, and the Big Four, or the Indiana, Illinois, and Iowa, and the Kankakee and Seneca railroads, from which points an electric line runs to the College grounds. Visiting days are Sundays, Tuesdays, and Thursdays. Good accommodations for parents and friends are easily obtained in the village.

Telegrams should be addressed to (St. Viateur's College) Kankakee, Ill., from which point they will be transmitted by telephone.

General Rules.

The manner of life at the College is that of a large, well regulated family. The professors and tutors reside in the institution and devote themselves entirely to the duties of their

profession, forming but one family with the students and exercising a constant supervision, friendly in the highest degree to discipline, decorum and good morals.

The education which the College wishes to impart is distinctly *Catholic.* It is of the completest kind, and embraces both intellect and will,—head and heart, knowledge of duty and virtuous habits. Hence, a course of religious instruction, graded according to the capacity of the students, runs parallel with the course of secular studies, which all Catholic students must follow. Non-Catholic students must be present (for the sake of good discipline) at the daily chapel exercises and the familiar talks on the virtues, obedience, temperance, honesty, etc., which are the fairest and richest adornments both of youth and of manhood.

Right behavior and application to studies are made the objects of tireless emulation, by monthly readings of the roll of honor. Reports of the class standing, application, politeness, deportment, and health of each student, are sent to parents or guardians monthly. Beautiful gold medals and other prizes for excellence in the various branches are awarded on Commencement Day.

While the government of the College is mild and parental, the laws of good order, propriety, and morality are strictly enforced. The moral influence of instruction, persuasion, and encouragement is primarily and mainly relied on, and is seldom found ineffectual.

If a student, disregarding all these and other inducements to study and right conduct, loses his time and infracts other regulations of the College, he will be punished, and if necessary expelled. The penalty of expulsion is incurred also for irreligious language or writings, the introduction of infidel or immoral books, the use or introduction of intoxicating liquors, card playing, and every other species of gambling. Any person wilfully damaging the property of the College must make compensation for the same.

All letters and packages to and from the students shall be subject to the inspection of the President or his representative. Books, periodicals, and newspapers are likewise subject to supervision and approbation.

Leave of absence cannot be granted to students during the term except in cases of urgent necessity.

Permission to go to town will be granted to students only for grave reasons and when accompanied by a professor. The students are assigned to departments according to their age and have separate class rooms, dormitories, etc. Young men of 17 and upward are assigned to the Senior, 13 to 17 to the Juniors, and those under 13 to the Minim, department. Students not returning at the proper time after Christmas holidays forfeit their rights to medals and prizes on Commencement Day.

Studies and Method of Instruction.

There are five regular courses of study. The *Preparatory,* which comprises those elementary studies which younger students must follow in order to fit themselves for entering the other courses. The *Commercial,* which comprises all the branches of a finished business education. Graduates in this course are awarded *diplomas* which are attestations of their practical business ability. The *Classical,* which comprises all that higher acquaintance with languages, history, mathematics, natural and mental philosophy, and which prepares young men for law, medicine, theology, and other university or seminary courses. The students of this course, after having passed satisfactory public examinations and having given clear evidence of their worthiness, are awarded the degree of Bachelor of Arts. Bachelors of Arts may, on proper application made to the president and faculty, receive the degree of Master of Arts, provided they shall have devoted at least two years to literary pursuits. The course in *Letters* comprises chiefly Ancient and Modern languages and their literature,

Practical Lessons in the Art of Literary Criticism, of Rhetoric, Composition, and Oratory. The degree of Bachelor of Letters is conferred on students of this course who have successfully passed the public examinations. The *Scientific,* which embraces the higher mathematics and physical sciences, prepares students for special university courses in pharmacy, medicine, and civil and mechanical engineering. The degree of Bachelor of Science is awarded to graduates in this course. Besides these courses, young men who desire to study for the priesthood can follow the regular seminary course as laid down in the course of study.

Studies in these various courses are very materially assisted and encouraged by an excellent circulating library. (We take this occasion to thank our friends for valuable contributions already received and to solicit further patronage for our library.) In the earlier years of each course the Socratic method of questions and answers is followed. In the more advanced classes, the lecture system is adopted. The most approved text-books are placed in the hands of the students, and teachers avail themselves of every advantage which the progress of pedagogical science affords in order to further the rapid and solid advancement of their pupils.

Military Training.

While no feature of physical culture, from calesthenics to football, is neglected, special attention is paid to military training. The theory and practice of arms have for many years been a popular as well as a healthy pastime with the students.

The originators of this department were the Revs. D. B. Toomey and J. P. Dore. The yearly prize drill for the companies, commissioned and non-commissioned officers, has been judged by Capt. T. J. Ford, of the Chicago Zouaves, assisted by other military experts. Excepting the chaplain and surgeon, the battalion is officered, instructed, and drilled by the

students themselves. Three hours a week throughout the entire ten months are devoted to the practice of the manual. The theory of arms is taught during the winter season.

All students, unless dispensed for a valid reason, are required to join the ranks. A regular uniform is worn, which can be obtained at Work Bros. & Co., Jackson and Fifth avenue, Chicago, Ill. (For prices see *Expenses*, page 16.) Besides the battalion (six companies), the best exercised in arms, from exhibition companies, known as the Ford Rifles, and the Minim Columbian Guards, a title won on the World's Fair Ground, Chicago, in 1893. These are proofs of the interest which the cadets take in the military exercises, to say nothing of the patriotic spirit which is fostered among students and other more immediate moral and physical advantages. They learn to appreciate the value of discipline; they learn habits of obedience; they acquire, or develop, a graceful and elastic bearing and strengthen their bodies, which are thus erected into homes for sound minds.

THE VIATORIAN.

The Viatorian is a monthly publication in which the thought of the advanced classes in various courses of study finds expression. It deals chiefly with historical, literary, scientific, and philosophical subjects, offering students an incentive for greater efforts and more perfect work in the various branches of study.

The Viatorian also chronicles the most important events of students' life at the college, the celebration of college feasts, the doings of the various dramatic, musical, literary, oratorical, athletic, and military organizations of the institution. These accounts, together with columns of personal notes, are of interest to former students. *The Viatorian* also records the monthly progress of students and publishes the list of the winners of distinctions at the regular readings of the class, and conduct notes. Thus the monthly visits of the college journal informs parents and guardians of the advancement of their children and wards.

The college journal first appeared in 1882, and it has ever been the ambition of the students to maintain the high standard of excellence which has won them the encouragement of a host of friends as well as the most complimentary notices of the college.

St. Viateur's College

HISTORICAL

TO SECURE the faith of the people, and especially to shield the young from the dangers of apostacy, it has been decided by the ecclesiastical authorities of Chicago that Bourbonnais be made the center of the most enlightened Catholic teaching, as well as the highest and most practical secular learning.

To accomplish this end the clerics of St. Viateur were called from Joliette, Canada. The Very Reverend P. Beaudoin, C.S.V., R.D., arrived in 1865 and took charge of the Parish of Bourbonnais. While under his direction Bros. A. Martel, C.S.V., and J. B. Bernard, C.S.V., opened a commercial academy, which soon attracted a large number of students. In 1868 the Rev. Thomas Roy, C.S.V., was sent from Canada to inaugurate classical studies and to assume the direction of the growing institution. The proportions of the original school building now became entirely insufficient. Demands for more room and better accommodations were numerous and urgent. In 1869, the principal part of the present building was erected and fitted out for immediate use. Courses in Languages, Literature, Music, Sciences, Philosophy, and Theology were opened.

In 1874 the College received its University charter from the State Legislature of Illinois. By virtue of this charter, the institution was empowered to grant degrees in Arts, Sciences, and Letters.

Father Roy, whom tireless pioneer work had exhausted, returned to Canada, where he died July 16, 1879, leaving St. Viateur's College in charge of the Rev. M. J. Marsile, C.S.V.

ROY MEMORIAL CHAPEL

But as the "just man shall be in everlasting remembrance," so the consecrated life of Father Roy was held in pious memory by those to whom he had broken the bread of virtue and of knowledge.

In June, 1888, a large number of the Alumni, in meeting assembled, voted that a chapel be erected by them as a memorial of Father Roy's zeal and as a tribute of their own love for him. Contributions were promptly paid up, and the next year beheld rising beside the principal building the graceful and airy towers of the Roy Memorial Chapel. The architecture of the edifice is of Corinthian style; its spacious auditorium is a perfect rotunda, adorned with stained glass windows of the highest artistic value, paintings of rare beauty and inspiration, statues of the patron saints of youth, and a grand pipe organ, whose sweet swelling tones elevate and cheer the soul as do the varied accents of human eloquence.

The Chapel has a seating capacity of five hundred. It is, like the other College buildings, constructed of blue stone drawn from the neighboring quarries along the Kankakee river. In the wing, which was built at the same time, to unite the Chapel with the old building, were located the parlors, reception rooms, the minim and musical departments, and the lecture rooms of the higher commercial course. With these important additions the College is now fitted to accommodate four hundred students. Judicious taste and nicety are evidenced in the appointments of class rooms, study hall, dormitories, and dining rooms. But neither safety nor comfort has been neglected. All the buildings are lighted by electricity and heated by steam, and thus this massive pile of stone edifices is rendered almost fire-proof. An abundance of excellent water is supplied by a neighboring spring, through a complete system of water works.

THE GYMNASIUM

One of the most important additions to the College buildings is the new gymnasium, which was formally opened

THE NEW GYMNASIUM.

LIBRARY
OF THE
UNIVERSITY of ILLINOIS

October 21, 1901. The erection and outfitting of this spacious building are due to the generous assistance received from former students of the College. Its cost is estimated at $40,000. The building presents a pleasing appearance; it is a massive stone structure 153 by 97 feet. The interior is finished in enamelled brick and Georgia pine. Like the other College buildings, it is lighted by electricity and heated by steam. Its equipments leave nothing to be desired in the way of facilities for military exercises, hand ball, indoor base ball, billiards, pool, bowling and other games that rob the winter months of their dreariness and at the same time afford excellent opportunities for healthful physical development. Attached to the gymnasium are the bath rooms, closets, reading rooms, armories, music room, barber shop and the confectionery store. There is also a fully equipped stage, and an auditorium with a seating capacity of 1500.

St. Viateur's College Bourbonnais Illinois

The vegetable gardens and stock farm of the College and of the outlying districts supply the tables with the most nutritious food. The culinary department is in charge of the Sisters, as are also the infirmary, laundry, and dormitories. The diet of the students is always wholesome and abundant. In sickness, the students are watched over with parental solicitude, and all the care that parents can desire is given to the wardrobe, the dormitories, and all those departments upon which health, comfort, and economy depend.

LOCATION

St. Viateur's College is situated in Bourbonnais, a village of ideal pastoral quietude. It is distant fifty-six miles from Chicago and three miles from Kankakee. Its site, on the old Levasseur Hill, overlooking a scene of rural peace and plenty, just on the verge of an extensive grove of forest trees and hard by the banks of the Kankakee river, is peculiarly beautiful and healthy.

The pure and bracing open air, the romantic scenery, the abundance of game in and along the river, have made Kankakee a favorite resort of pleasure and health seekers. Near enough to enjoy the advantages of the city when

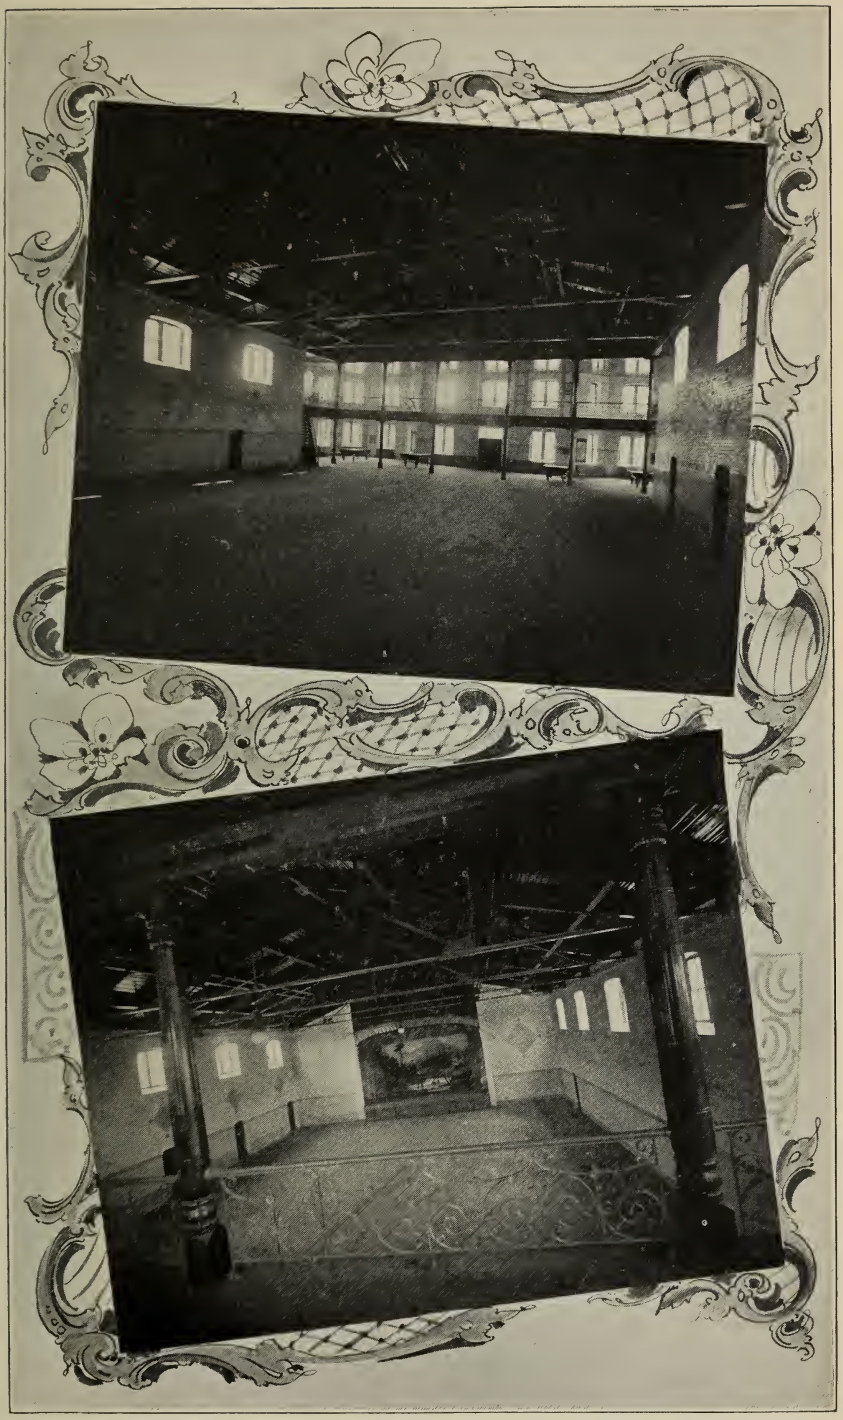

needed, the College is far enough removed from its distractions and moral dangers. It is well known that retirement from the noisy scenes of the street and from the distractions of the city is most favorable to, if not indispensable for, deep study, as well as for the formation of good habits. From the constant and direct intercourse between College companions, not only are the ties of salutary friendship more closely woven, but there springs up also in the hearts of even careless students a wholesome emulation, a hitherto unfelt appreciation of the advantages of study. This in part explains the unprecedented success so gratifying to solicitous parents. On the other hand, the College is not entirely a silent solitude. Its position out of the city has enabled the directors to purchase spacious grounds which are beautifully shaded and arranged for all the favorite national outdoor sports. The animation of the campus is suggestive of anything but lifeless seclusion when the several military companies are maneuvering, when games of baseball, football, lawn tennis and handball are in progress.

Amateurs of the piscatory sports, or lovers of woodland scenery are accompanied by their professors to their favorite haunts, to the rendezvous of the finny tribe, or in the tangled forests of the picturesque ravines. Those not partial to musing on the beauties of nature find pleasure in gathering nuts and wild fruits. Skating and sleighing are favorite winter sports and within the reach of all. Swimming and boating are indulged in under the careful supervision of the tutors.

The gymnasium and the large and well-aired halls of the College are specially well adapted for indoor sports during the winter as well as for dramatic and musical entertainments of a high æsthetic order.

ACCESSIBILITY

The College is most easy of access *via* Kankakee or Bradley, on the main line of the Illinois Central, and the Big Four, or the Indiana, Illinois, and Iowa, and the Kankakee and Seneca railroads, from which points an electric line runs to the College grounds. Visiting days are Sun-

days, Tuesdays, and Thursdays. Good accommodations for parents and friends are easily obtained in the village.

Telegrams should be addressed to (St. Viateur's College) Kankakee, Ill., from which point they will be transmitted by telephone.

GENERAL RULES

The manner of life at the College is that of a large, well regulated family. The professors and tutors reside in the institution and devote themselves entirely to the duties of their profession, forming but one family with the students and exercising a constant supervision, friendly in the highest degree to discipline, decorum and good morals.

The education which the College wishes to impart is distinctly *Catholic.* It is of the completest kind, and embraces both intellect and will,—head and heart, knowledge of duly and virtuous habits. Hence, a course of religious instruction, graded according to the capacity of the students, runs parallel with the course of secular studies, which all Catholic students must follow. Non-Catholic students must be present (for the sake of good discipline) at the daily chapel exercises and the familiar talks on the virtues, obedience, temperance, honesty, etc., which are the fairest and richest adornments both of youth and of manhood.

Right behavior and application to studies are made the objects of tireless emulation, by monthly readings of the roll of honor. Reports of the class standing, application, politeness, deportment, and health of each student, are sent to parents or guardians monthly. Gold medals and other prizes for excellence in the various branches are awarded on Commencement Day.

While the government of the College is mild and parental, the laws of good order, propriety, and morality are strictly enforced. The moral influence of instruction, persuasion, and encouragement is primarily and mainly relied on, and is seldom found ineffectual.

If a student, disregarding all these and other inducements to study and right conduct, loses his time and in-

fracts other regulations of the College, he will be punished, and if necessary expelled. The penalty of expulsion is incurred also for irreligious language or writings, the introduction of infidel or immoral books, the use or introduction of intoxicating liquors, card playing, and every other species of gambling. Any person willfully damaging the property of the College must make compensation for the same.

All letters and packages to and from the students shall be subject to the inspection of the President or his representative. Books, periodicals, and newspapers are likewise subject to supervision and approbation.

Leave of absence cannot be granted to students during the term except in cases of urgent necessity.

Permission to go to town will be granted to students only for grave reasons and when accompanied by a professor. The students are assigned to departments according to their age and have separate class rooms, dormitories, etc. Young men of 17 and upwards are assigned to the Senior, 13 to 17 to the Juniors, and those under 13 to the Minim, department.

STUDIES AND METHOD OF INSTRUCTION

There are five regular courses of study. The *Preparatory*, which comprises those elementary studies which younger students must follow in order to fit themselves for entering the other courses. The *Commercial*, which comprises all the branches of a finished business education. Graduates in this course are awarded *diplomas* which are attestations of their practical business ability. The *Classical*, which comprises all that higher acquaintance with languages, history, mathematics, natural and mental philosophy, and which prepares young men for law, medicine, theology and other university or seminary courses. The students of this course, after having passed satisfactory public examinations and having given clear evidence of their worthiness, are awarded the degree of Bachelor of Arts. Bachelors of Arts may, on proper application made to the president and faculty, receive the degree of Master of Arts, provided they shall have devoted at least two

years to literary pursuits. The course in *Letters* comprises chiefly Ancient and Modern languages and their literature, Practical Lessions in the Art of Literary Criticism, of Rhetoric, Composition and Oratory. The degree of Bachelor of Letters is conferred on students of this course who have successfully passed the public examinations. The *Scientific*, which embraces the higher mathematics and physical sciences, prepares students for special university courses in pharmacy, medicine, and civil and mechanical engineering. The degree of Bachelor of Science is awarded to graduates in this course. Besides these courses, young men who desire to study for the priesthood can follow the regular seminary course as laid down in the course of study.

Studies in these various courses are very materially assisted and encouraged by an excellent circulating library. (We take this occasion to thank our friends for valuable contributions already received and to solicit further patronage for our library.) In the earlier years of each course the Socratic method of questions and answers is followed. In the more advanced classes, the lecture system is adopted. The most approved text-books are placed in the hands of the students, and teachers avail themselves of every advantage which the progress of pedagogical science affords in order to further the rapid and solid advancement of their pupils.

MILITARY TRAINING

While no feature of physical culture, from calisthenics to football, is neglected, special attention is paid to military training. The theory and practice of arms have for many years been a popular as well as a healthy pastime with the students.

The originators of this department were the Revs. D. B. Toomey and J. P. Dore. The yearly prize drill for the companies, commissioned and non-commissioned officers, has been judged by Capt. T. J. Ford, of the Chicago Zouaves, assisted by other military experts. Excepting the chaplain and surgeon, the battalion is officered, instructed and drilled by the students themselves. Three hours a week throughout the entire ten months are devoted to the practice of the

manual. The theory of arms is taught during the winter season. A regular uniform is worn. (For prices see *Expenses.*) Besides the battalion (six companies), the best exercised in arms, form exhibition companies, known as the Ford Rifles, and the Minim Columbian Guards, a title won on the World's Fair Grounds, Chicago, in 1893. These are proofs of the interest which the cadets take in the military exercises, to say nothing of the patriotic spirit which is fostered among students and other more immediate moral and physical advantages. They learn to appreciate the value of discipline; they learn habits of obedience; they acquire, or develop, a graceful and elastic bearing and strengthen their bodies, which are thus erected into homes for sound minds.

VIATORIAN

The Viatorian is a monthly publication in which the thought of the advanced classes in various courses of study finds expression. It deals chiefly with historical, literary, scientific, and philosophical subjects, offering students an incentive for greater efforts and more perfect work in the various branches of study.

The Viatorian also chronicles the most important events of students' life at the college, the celebration of college

feasts, the doings of the various dramatic, musical, literary, oratorical, athletic and military organizations of the institution. These accounts, together with columns of personal notes, are of interest to former students. *The Viatorian* also records the monthly progress of students and publishes the list of the winners of distinctions at the regular readings of the class, and conduct notes. Thus the monthly visits of the college journal informs parents and guardians of the advancement of their children and wards.

The college journal first appeared in 1882, and it has ever been the ambition of the students to maintain the high standard of excellence which has won them the encouragement of a host of friends as well as the most complimentary notices of the college.

SYNOPSIS OF PLAY.

ACT I. Columbkille condemned by King Diarmid to restore to Abbot Finnian the copy of the Psalter. King Diarmid kills Kiernan, son of King of Connaught, who has fled to Columbkille for protection.

ACT II. Martial rejoicings of united forces of Kings of Connaught and O'Donnell, who have defeated King Diarmid. Columbkille receives sentence of excommunication for his participation in so much bloodshed. Announcement of his life work as the apostle of the Picts. His dignities are restored. He resolves to leave Ireland forever.

ACT III. After many years of Apostolic labors among the Picts, Columbkille, with much solemnity, crowns their king, Aidan. He pleads for the maintenance of the bardic order. Apotheosis of the harp. Columbkille invokes blessings on Scotland and Ireland.
